PROFILE

I bring proficiency in JavaScript, React, Redux, and jQuery to craft dynamic and responsive user interfaces. I am dedicated to creating seamless and visually appealing experiences for users. Additionally, I have a foundational understanding of Firebase for backend development, allowing for effective integration and data management. Eager to contribute my skills and learn in a collaborative team environment,

PROFESSIONAL EXPERIENCE

Front-end Development

09/2023 – 10/2023

The Website Makers 🌐

WFH

- Built many websites interface using front-end technologies such as HTML, CSS, JavaScript, jQuery, Bootstrap.
- In this internship i will learnt how to work on real-world projects, how to works with team members and learnt many things with my seniors

PROJECTS

Store-Hub 🌐

Ecommerce Project

- Implemented user authentication with secure login and signup functionality.
- Designed a admin dashboard, empowering administrators to efficiently manage products, track orders, and monitor user logins.
- Users can seamlessly add products, utilize a user-friendly shopping cart, and complete orders with ease. I successfully integrated Razorpay for secure and seamless payment processing.
- This project highlights my skills in front-end development, backend management, and third-party API integration.

Tech-Stack Used:- React, Redux, Firebase, Tailwind Css, Material UI, Context Api, Razorpay
